

COATINGS COLOR CHART

- All colors shown are representation only. Due to screen variations, ink, or any other number of uncontrollable factors, colors shown might be a different shade, hue, tint, or variation of color than the actual product or even colors provided on sample color sheet.
- All products will be made to the best of our ability to provide uniformity compliant with coating industry standards. For color verification, a color sample is available upon request.
- When product is applied, color may also be affected by application technique, surface texture, and lighting conditions.
- White is the only color stocked and ready for shipment upon order being placed. All other colors must be manufactured. Allow 7-10 business days for manufacturing.
- Custom colors for several products outside of this chart are available. The upcharge depends upon the color selected.
- All premium and custom color orders are manufactured with the understanding and agreement that the customer agrees to purchase as much as an additional 10% of product that may occur during the batch making process.
