

URE-A-SIL WATERPROOFING

The coverage rates listed on this page are estimates based on typical conditions. It is critical to check all fasteners before adding mastic to ensure they are tight. Add stitch screws at seams before applying mastic when necessary. The width of the detail may need to be wider than estimated.

MATERIAL	COVERAGE PER GALLON	WIDTH	WET MILS	AVERAGE DRY MILS	COVERAGE PER 5 GALLON PAIL
SEAMS & TERMINATION					
Urethane Brush Grade 522	100 linear ft./ gallon	4" wide	50	30	500 linear feet/ pail
