Met-A-Gard™

ROOF RESTORATION SYSTEM

THE MET-A-GARD ADVANTAGE

The Met-A-Gard roof restoration system is the preferred solution to restore and protect commercial and industrial metal roof surfaces. Utilizing highly-advanced acrylic roof coatings with industry-leading elongation and tensile strength, the Met-A-Gard System sets the standard for quality, performance, and affordability in metal roof repair and restoration.

The Met-A-Gard system is specifically designed to restore and protect a variety of commercial roofing materials from the damaging effects of the wind, rain, and sun exposure. It also helps combat the effects of northern climate conditions including damage caused by freeze-thaw cycles.

Met-A-Gard provides a highly-reflective and watertight membrane ideal for coating entire roofs, making spot repairs, or adding supplemental protection to flashing.

SUITABLE SUBSTRATES

- Metal

FEATURES & BENEFITS

- Half the cost of conventional roof replacement
- Stops leaks and improves existing roof performance
- Increases the lifespan of commercial metal roofs
- Improves energy efficiency
- Significantly reduces maintenance costs
- Prevents rust and corrosion
- Industry leading durability, reflectivity, and UV stability
- Cures to form a seamless and watertight membrane
- Excellent adhesion to a variety of metal roof substrates
- Minimal disruption to business
- Long-term NDL (no dollar limit) warranties available

- 1 Metal roof substrate
- 2 Red Oxide Rust Prime 912 (if necessary)
- 3 Acrylic Brush-Grade 220, Butter-Grade 221
- 4 Acrylic 211 (ivory)
- 5 Acrylic 211

152°F

SURFACE TEMPERATURE

96°F

Minimizing the sun's impact on your roof is key to its longevity. The majority of commercial metal roofs are not adequately designed to prevent the flow of heat from constant UV exposure. The Met-A-Gard System is proven to mitigate the damaging effects of the sun on metal roof surfaces and effectively reduce interior cooling costs by up to 30%.

APPLICATION PROCESS

SURFACE PREPARATION: To ensure maximum adhesion, the roof surface is pressure washed to remove all dirt, dust, and debris. A primer application of Red Oxide Rust Prime 912 may be necessary.

WATERPROOFING DETAILS: All seams and fasteners are coated with a waterproofing mastic to help withstand the expansion and contraction of the roof structure.

BASE COAT: A base coat application of ivory-tinted Acrylic 211 provides a durable, flexible, and fully-adhered foundation membrane.

TOP COAT: A bright-white top coat of Acrylic 211 provides the system with superior durability, reflectivity, weatherability, and mildew resistance.

THE AMERICAN WEATHERSTAR DIFFERENCE

Founded in 2004, American WeatherStar is an established leader in the commercial roofing industry. We manufacture high-quality, sustainable, and energy-efficient roof restoration solutions for a variety of commercial and industrial applications.

With over 500 million square feet of commercial roofing warranted throughout the United States, our fluid-applied roof restoration systems are proven to perform under the most extreme conditions and deliver long-lasting waterproofing protection.

The solutions we provide are specially formulated to stop leaks, reduce energy costs, and prolong service life. The quality control measures of our product manufacturing process go above and beyond industry standards to ensure our materials outperform expectations.

We work closely with our Approved Contractors on every project to ensure quality workmanship and customer satisfaction. For added protection and peace of mind, we offer long-term NDL (no-dollar-limit) labor & material warranty plans for eligible systems.

STARGARD™ WARRANTY PROGRAM

Protect your investment with the StarGard Warranty Program. We offer a variety of long-term NDL (no-dollar-limit) warranty options for qualified systems when installed by an American WeatherStar Approved Contractor.

5-YEAR

10-YEAR

PROTECT YOUR INVESTMENT

With American WeatherStar's StarGard Warranty Program, commercial building owners can expect long-term protection and peace of mind. We provide a variety of long-term warranty alternatives when qualified systems are installed by an American WeatherStar Approved Contractor.
