

Roof Drawing Grid

AWS Invoice #(s) for this Job:

PO Box 6256 • Mobile AL, 36660 800-771-6643 • AmericanWeatherStar.com

Sketch details of the roof including areas coated and not coated by the AWS system. Show designated areas of ponds or concerns and all penetrations, skylights, drains, curbs, pitch pans, expansion joints, parapet walls, etc. The importance of this drawing is to show anything that could potentially be altered or damaged throughout the life of the warranty. Look for the Adobe Reader Comment icon Comment on the right side of your monitor. You can use the Adobe Reader Comment tools to draw directly on-screen and submit your completed form using the button below or you can print this form and either scan, fax, email or mail it in to the AWS corporate office. For more details on drawing with Adobe Reader go here.
